

Proteomic Analysis of DNA–Protein Cross-Linking by Antitumor Nitrogen Mustards [Volume 22, Number 6, 2009, pp 1151–1162] RACHEL L. LOEBER, ERIN D. MICHAELSON-RICHIE, SIMONA G. CODREANU, DANIEL C. LIEBLER, COLIN R. CAMPBELL, AND NATALIA Y. TRETYAKOVA*

The DNA sequence on pages 1153 (second column, under heading DNA–Protein Cross-Linking and Biotin Capture), 1155 (second column, under heading HPLC-ESI⁺-MS/MS Analysis of Cys-N7G-EMA), and 1156 (first column, under heading Western Blot Analysis of DPCs Involving Histone H4: Whole Cell Lysates) was listed incorrectly. The sequence should read 5'-GGA GCT GGT GGC GTA GGC-3'.
