

Additions and Corrections

2003, Volume 22

Jianhui Wang, Shoujian Li, Chong Zheng, Narayan S. Hosmane,* John A. Maguire, Herbert W. Roesky, Christopher C. Cummins, and Wolfgang Kaim: An Oxide Ion Encapsulating Tetraholmium Tetrahedron Stabilized by Complexation with the “Carbons Apart” C₂B₄-Carborane Ligands.

Pages 4390–4392. The title compound was consistently mislabeled in both the summary and the text. The tetraholmium compound should be $\{[\eta^5\text{-1-Ho(THF)-2,4-(SiMe}_3)_2\text{-2,4-C}_2\text{B}_4\text{H}_4]_4(\mu\text{-Cl})_2(\mu_4\text{-O})\}$.
