

Additions and Corrections

2007, Volume 26

David McGuinness,* Adam Rucklidge, Robert Tooze,* and Alexandra Slawin: Cocatalyst Influence in Selective Oligomerization: Effect on Activity, Catalyst Stability, and 1-Hexene/1-Octene Selectivity in the Ethylene Trimerization and Tetramerization Reaction

Pages 2561–2569. The preparation of complex **2** {[Al-(OC₆F₅)₃]₂} and its crystal structure were reported. The synthesis and crystal structure of this compound have been reported previously: Chakraborty, D.; Chen, E. Y.-X. *Macromolecules* **2002**, 35, 13–15.
