**Atsushi Ohtaka, Naohiro Kato, and Hideo Kurosawa:** Reversible Cleavage of the C–H Bond of Aldimine with Platinum Complexes

Pages 5464–5466. Throughout the paper two systems of units were employed for the values of  $\Delta H^\circ$  and  $\Delta S^\circ$ . The value of  $\Delta H^\circ = 38.0(8)$  kJ/mol, shown in the table of contents, the summary, and the main text, should be replaced by  $\Delta H^\circ = 9.17(9)$  kcal/mol.
