

**Highly Reactive Cyclopentadienylcobalt(I) Olefin Complexes**[*Organometallics* **2010**, 29, 4298. DOI: 10.1021/om100692k].

Marko Hapke,\* Nico Weding, and Anke Spannenberg

The synthesis of complexes **9** and **10** has also been accomplished by a photochemical approach starting from CpCo(CO)<sub>2</sub> and the appropriate diene.<sup>1</sup> We thank Prof. K. P. C. Vollhardt for bringing this to our attention and apologize for the missing reference.
