**Per-Ola Norrby,\* Mary M. Mader, Maxime Vitale, Guillaume Prestat, and Giovanni Poli\*:** Rationalizing Ring-Size Selectivity in Intramolecular Pd-Catalyzed Allylations of Resonance-Stabilized Carbanions

Page 1852. The reaction product described in entry 7 of Table 2 was incorrectly assigned as the 2-carbomethoxy-3-vinyl- $\gamma$ -lactone **5c** (1:1 diastereomeric mixture). Further analyses revealed it to be the isomeric 2-carbomethoxy-4-vinyl- $\gamma$ -lactone. See also: Silvestri, M. A.; He, C.; Khoram, A.; Lepore, S. D. *Tetrahedron Lett.* **2006**, 47, 1625. We sincerely regret this oversight.
