

Correction to Fifty Years of Ziegler–Natta Polymerization: From Serendipity to Science. A Personal Account

John J. Eisch

Organometallics 2012, 31 (14), 4917–4932. DOI:10.1021/om300349x

The Publisher regrets that an error was made in the biography of Professor John Joseph Eisch.

The sentence, “Comparison of Phenanthridine with Other Azaaromatic of main-group organometallics (Al, Ga, In) with unsaturated hydrocarbons at the Max-Planck-Institut für Kohlenforschung, Mülheim, Germany, and then research fellow at Union Carbide’s European Research Associates Center in Brussels, Belgium.” was inadvertently condensed from two sentences:

“Comparison of Phenanthridine with Other Azaaromatic Heterocycles”. He was postdoctoral associate with Karl Ziegler on the reactions of main-group organometallics (Al, Ga, In) with unsaturated hydrocarbons at the Max-Planck-Institut für Kohlenforschung, Mülheim, Germany, and then research fellow at Union Carbide’s European Research Associates Center in Brussels, Belgium.
