

Additions and Corrections

2005, Volume 24

Brett D. Swartz, and Chip Nataro: Anodic Electrochemistry of Ferrocenylphosphine and Ruthenocenylphosphine Chalcogenide Complexes and Lewis Acid Adducts

Page 2450. In line 24 of the right-hand column, there is mention of an incorrect assumption made in ref 17. We incorrectly transposed the words selenium and phosphorus. The rest of the text remains unchanged and is correct as written.

Page 2451. In eq 1, the variables were inadvertently transposed. The correct equation is $E_L = 0.45\sigma_p + 0.36$.
