

Electronically-Deficient Biiridacarbaborane Clusters with a Bridging μ,η -COD Ligand [*Organometallics* **2010**, 29, 1707. DOI: 10.1021/om901111d]. Leonid S. Alekseev, Fedor M. Dolgushin, and Igor T. Chizhevsky*

Page 1710. The first sentence on this page should read as follows: This last step may be viewed as intramolecular oxidative addition at the iridium center in complex **H** to form **I** with subsequent elimination of H₂O, which completes the transformation into biiridacarbaborane cluster **2**.
