

Correction to Potential of the NBP Method for the Study of Alkylation Mechanisms: NBP as a DNA-Model

Rafael Gómez-Bombarelli, Marina González-Pérez, Emilio Calle, and Julio Casado*

Chemical Research in Toxicology **2012**, 25, (6), 1176–1191. DOI: 10.1021/tx300065v

An error occurred in the PDF version of this review when issue 6 was published on June 18, 2012, which resulted in extra space on page 1186 and the disappearance of references 189–220 on page 1191. The extra space on page 1186 was removed, and references 189–220 were added back into page 1191.
