

Additions and Corrections

2006, Volume 69

Rebecca Theodori, Anastasia Karioti, Ana Rančik, and Helen Skaltsa*: Linear Sesquiterpene Lactones from *Anthemis auriculata* and Their Antimicrobial Activity.

Page 662: The application of Mosher's method for ^1H NMR revealed the absolute configuration of the secondary alcohol center of hydroxyanthecotulide to be $4R$ (see Figure 2), and not $4S$ as reported by oversight in the previous communication. We thank Prof. Dr. M. Hodgson (Oxford) for bringing this error to our attention.
