Chem. Res. Toxicol. **2011**, 24 (12), 22802292. DOI: 10.1021/tx200420a

In the Introduction, in the second paragraph, there was an error in the following sentence: Calycopterin, 5,4'-dihydroxy-3,6,7,8-tetramethoxyflavone (Figure 1), is a member

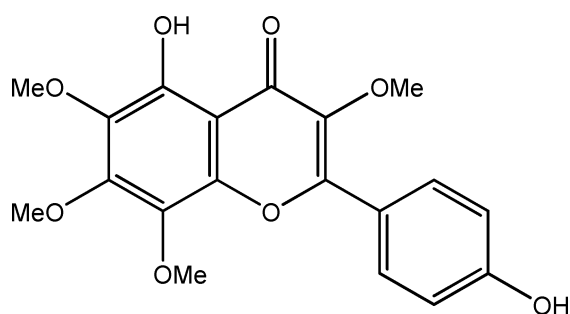

Figure 1. Chemical structure of calycopterin.

of the flavonoids first isolated from leaves of *Digitalis thapsi* L. and *Calycopteris floribunda* Lamk., two traditional Asian medicinal plants. It should be as follows: Calycopterin, 5,4'-dihydroxy-3,6,7,8-tetramethoxyflavone (Figure 1), is a member of the flavonoids first isolated from leaves of *Digitalis thapsi* L. and *Calycopteris floribunda* Lamk.

There was an error in Figure 1 as well. The corrected figure is shown here.
