

Additions and Corrections

Protein Targets of Reactive Electrophiles in Human Liver Microsomes [Volume 20, Number 6, 2007, pp 859–867]
NAH-YOUNG SHIN, QINFENG LIU, SHERYL L. STAMER, AND DANIEL C. LIEBLER*

In Figure 5, we transposed the labels for data for the electrophiles IAB and BMCC. Here, we present the corrected figure and legend. We apologize for our error.

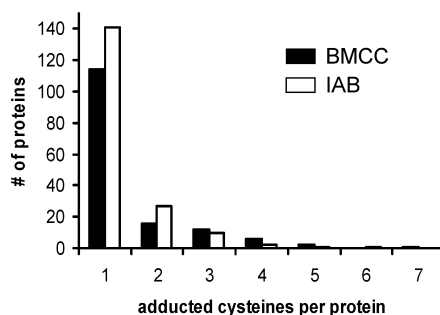

Figure 5. Number of adduct sites on identified human liver microsomal protein targets of BMCC (filled bars) and IAB (open bars).
