

Correction to Rotenoids from *Boerhaavia diffusa* as Potential Anti-inflammatory Agents

Khemraj Bairwa, Ishwari N. Singh, Somendu K. Roy, Jagdeep Grover, Amit Srivastava, and Sanjay M. Jachak*

J. Nat. Prod. **2103**, 76 (8), 1393–1398, 10.1021/np300899w

Pages 1393–1397: “Boeravinones K (2), L (3), M (5), N (7), and O (9)” should be renamed as “boeravinones P (2), Q (3), R (5), S (7), and M (9)”, respectively, as the earlier names (boeravinones K–O) have been assigned to the five new isolated compounds from *Boerhaavia erecta*, by Do, T. M. L.; et al. *Chem. Pharm. Bull.* **2013**, 61, 624–630. Among the five new isolated compounds from *Boerhaavia diffusa*, compound 9 is common in both simultaneously published papers as mentioned above. Therefore, compound 9 is renamed as boeravinone M, as per the first online published paper on *B. erecta*.
