Page 1423. In Table 1, among the down-regulated proteins listed, the peptides used to identify and quantify proteins P33993, P50990, P06454, and P27707 were not listed correctly. The correct ones should be LAQHITYVHQHSR (for P33993), ELEVQHPAAK (for P50990), AAEDDEDDDDVDTKK (for P06454), and HESWLLHR (for P27707).
